# University of Maine

# 1865 THE UNIVERSITY OF MAINE

- 11,000 Student Enrollment
- 866 Faculty
- · Carnegie R1 Top-Tier Research University
- 16:1 Student to Faculty Ratio
- 3.35 Avg. First Year Student GPA
- \$245.7M R&D expenditures in FY22
- 150+ Research Institutes, Centers and Labs
- · Maine's leading engineering program
- Engineering excellence since 1865

# Advanced Structures and Composites Center

We innovate to develop sustainable materials and technologies to solve infrastructure, energy and national security challenges, while empowering economic development and education in Maine.

#### **Strategic Goals**

- Educate and train the workforce leaders of the future.
- 2. Develop sustainable, more durable transportation and housing infrastructure.
- Serve national security priorities by developing enabling technologies.
- 4. Lead in floating offshore wind technology development
- Lead in large-scale manufacturing using advanced additive and hybrid processes.
- 6. Develop technologies to mitigate effects of sea level rise on coastal communities.
- 7. Develop breakthrough bio-based material systems and applications from Maine wood residuals

### NATIONAL SECURITY - RENEWABLE ENERGY - CIVIL INFRASTRUCTURE MARINE - AEROSPACE

- Largest University-based research Center in Maine
- Founded through the NSF in 1996
- 2,600+ students funded from 35 majors
- Over 300 Personnel
- 100.000 ft<sup>2</sup> lab
- 10+ spinoff companies
- 1,000 publications
- 130+ patents
- 30,000 Visitors
- 1,600 media stories

## University of Notre Dame

#### **Irish Facts & Figures**

- 13,000 students
- 1,400 faculty
- R-1 Research University
- Association of American Universities member (new in 2023)
- \$216M in research awards in FY23 (+57% since 2017)
- #1 in NEH Fellowships since 1999

### Goals

- 1) Prepare a timeline for a complex budget.
- along the way.

  1)2) Understand the pitfalls you may encounter

  1)3) See a decounter
- 1)3) See a demonstration of complex budgeting
- 4) Review some tools and tricks that may

Notre Dame D-line coach Al Washington (right) watches defensive tackle Rylie Mills go through some warm-up drills last fall. (Jeff Douglas, Inside ND Sports)

### The Opponent: Tight[end] Turnarounds!!

Your PI notifies you that they plan to respond to a DARPA BAA. There will be 3 subcontractors and the budget total will be \$5 million. The BAA materials include a budget template and a requirement to provide the budget for each project phase, the government fiscal year, and for each project task. The program is a 48-month effort with 3 phases starting October 1:

- Phase 1: 18 month base period
- Phase 2: 18 month option period
- Phase 3: 12 month option period

### Time to Huddle

#### Tackling everything with the Team approach

- Set up a kickoff meeting! Especially with a short timeline (set tasks
- Need a QB
  - Have any of your institutional or sponsor policies changed since the last time you worked with this PI?
  - Are there new tools and resources your division is expected to use on this proposal?
  - How do you communicate any changes from the past process on a short timeline?
  - Does the PI have prior experience with this sponsor/program?
  - Are there subawards and how do you collect this information quickly?

## Gameplan

- •How much time do you have before the internal and external submission deadline?
  - Are there multiple Pls? Subcontractors? Industry Partners?
  - How does your institution track effort?
  - Do you have deliverable-based invoicing but need to hire?
  - Does the sponsor require the budget in a specific format?
  - What are some of the questions you would ask in this situation?
  - What would you do if your PI is not responding?

### Kick Off

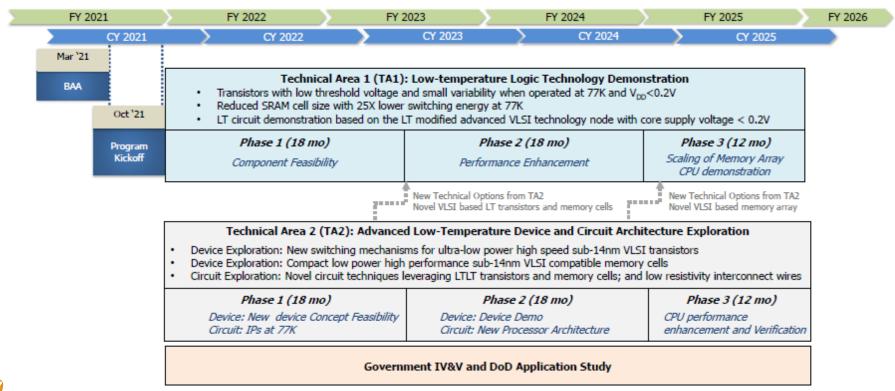

- •Work with the PI to develop the schedule, project timeline, and
- Understand the end game:

  - Award instrument (contract v. grant) Budget documentation
- How does the project budget need to be

## What's the end goal?

# Moving the Ball

What do you do when your PI hasn't provided budget information and/or isn't responding?

## In-Game Adjustments

#### •Electronic Systems

•New Federal Requirements for Compliance

- •Fabricated and other complex capital expenses
- •Get your Lab Support and other Teams involved

#### •Provisional Service Center rates

 Budgeting estimated rates while service centers are being set up

#### •PI level of effort

- What's reasonable for your Scope?Addressing
- Addressing internal and sponsor C&Ps

#### •Thinking ahead...

•Declaring Fundamental Research Exclusions

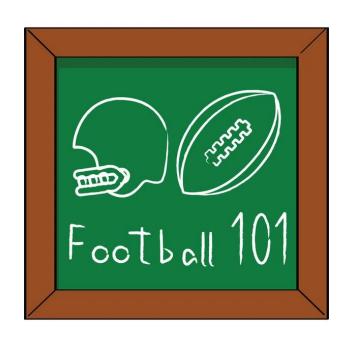

#### **DECISION TIME**

Join at menti.com | use code 1116 0075

### Fundamentals Make a Difference

Start with the internal budget

•Structure it using the project timeline and consider the sponsor budget requirements to make sure the budget periods align with the project schedule

# Internal Budget Formation

1 9-month, 3 12-month and 1 3-month periods to match sponsor periods and institutional fiscal year

|                                | Sponsor<br>FY22<br>M1-M9 |    | Sponsor<br>FY23<br>M10-M21 |    | Sponsor<br>FY24<br>M22-33 |    | Sponsor<br>FY25<br>M34-45 |    | Sponsor<br>FY26<br>M46-48 | Total         |

| Fringe Benefits                | \$<br>12,483             | \$ | 24,255                     | \$ | 24,983                    | \$ | 25,732                    | \$ | 10,697                    | \$<br>98,150  |

### Fundamentals Make a Difference

### Add your costs

#### •Be mindful of the timing of expenses:

- Summer v. academic year timing against the project periods
- Hiring/onboarding new staff, including postdocs, grad students, managing directors
- Equipment or supply purchases
- Travel for project meetings or conferences

- •Complete the sponsor spreadsheet and work on the required breakdowns.
- Fill in fiscal year, salary, fringe, and indirect rates
- Complete the detail tabs first, then phase/task tabs followed by milestone/deliverables and monthly breakdown

Sponsor Base Period: 18 months

Sponsor Option 1 Period: 18 months

Sponsor Option 2 Period: 12 months

Total: 48 Month Project Period

|                    |              | BASE         |            |              | OPTION 1    |               |              | OPTION 2     |               | To           | otal |          |

Do we have the resources to execute this award/grant?

Do we need to hire new people?

How long this award will fund my team?

As much as your organization can, invest in tools to help you be proactive v. reactive...
